

Amendment under 37 CFR 1.111
Serial No. 10/030,098
Attorney Docket No. 011713

AMENDMENTS TO THE CLAIMS:

This listing of claims replaces all prior versions and listings of claims in the application.

Listing of claims:

Claim 1 (Currently Amended): An information service method for providing information via a network including a first information-processing apparatus and a second information-processing apparatus, said information service method comprising steps of:

 inputting identification information of a product for purchase from a user of said network to said first information-processing apparatus;

 inputting an order for a surrogate investigation of said product from said user to said first information-processing apparatus;

 transmitting identification information of said user, identification information of said product, and an instruction on said surrogate investigation from said first information-processing apparatus to said second information-processing apparatus;

 storing said user identification information and said product identification information in said second information-processing apparatus;

 calling said product identification information from said second information-processing apparatus to identify said product so as to conduct ~~an~~ a physical investigation of said identified product by an appointed investigation agent; and

 providing information obtained from said investigation to said user identified on the basis of said user identification information.

Amendment under 37 CFR 1.111
Serial No. 10/030,098
Attorney Docket No. 011713

Claim 2 (Original): An information service method as defined in claim 1, which further includes a step of publishing information for designating a store and information about products dealt by said store on said network including said first and second information-processing apparatuses, wherein said user identifies a product for purchase among said published products.

Claim 3 (Original): An information service method as defined in claim 1 or 2, wherein said step of inputting an order for a surrogate investigation includes designating the level of said investigation or a deadline for the answer of said investigation.

Claim 4 (Currently Amended): An information service system for providing information via a network, said information service system comprising: a first information-processing apparatus and a second information-processing apparatus,

said first information-processing apparatus including[,,] :

means for acquiring identification information of a product for purchase and an order of a surrogate investigation of said product, from said user of said network, and

means for transmitting identification information of said user, identification information of said product, and an instruction of said surrogate investigation, to said second information-processing apparatus; and

said second information-processing apparatus including[,,] :

Amendment under 37 CFR 1.111
Serial No. 10/030,098
Attorney Docket No. 011713

means for storing said user identification information and said product identification information with a certain association therebetween, and

means for providing information about a result of ~~an~~ a physical investigation by an appointed investigation agent to said user, said investigation being related to said product identified on the basis of said information stored in said storing means.

Claim 5 (Currently Amended): An information service system as defined in claim 4, wherein said acquiring means is operable to acquire the identification information of a product for purchase and the order in parallel with publishing information for designating a store and information about products dealt by said store on said network to provide ~~them~~ said products to said user.

Claim 6 (Original): An information service system as defined in claim 4 or 5, wherein said acquiring means is operable to acquire designated information about the level of said investigation or a deadline for the answer of said investigation from said user.

Claim 7 (Currently Amended): A server apparatus to be connected to an information-processing terminal via a network, said information-processing terminal including:

means for acquiring identification information of a product for purchase and an order for a surrogate investigation of said product, from ~~said~~ a user of said network; and

Amendment under 37 CFR 1.111
Serial No. 10/030,098
Attorney Docket No. 011713

means for transmitting identification information of said user, identification information of said product and an instruction of said surrogate investigation, to said server ~~system apparatus~~, and wherein

said server ~~system apparatus~~ comprises:

means for storing said user identification information and said product identification information with a certain association therebetween; and

means for providing information about a result of ~~an~~ a physical investigation by an appointed investigation agent to said user, said investigation being related to said product identified on the basis of said information stored in said storing means.

Claim 8 (Currently Amended): The server apparatus of claim 7, wherein a [[A]] computer readable media medium storing a program to be read in and executed on a computer is used to implement the server apparatus as defined in claim 7.

Claim 9 (Currently Amended): An information-processing terminal to be connected to a server apparatus via a network, said server apparatus including:

means for storing identification information of a user of said network and identification information of a product for purchase with a certain association therebetween; and

Amendment under 37 CFR 1.111
Serial No. 10/030,098
Attorney Docket No. 011713

means for providing information about a result of ~~an~~ a physical investigation by an appointed investigation agent to said user, said investigation being related to said product identified on the basis of said information stored in said storing means, and wherein

said information-processing terminal comprises:

means for acquiring identification information of a product for purchase and an order for a surrogate investigation of said product, from said user of said network; and

means for transmitting said identification information of said user, said identification information of said product and an instruction on said surrogate investigation, to said server apparatus.

Claim 10 (Currently Amended): The information processing terminal of claim 9, wherein a [[A]] computer readable media medium storing a program to be read in and executed on a computer is used to implement the information-processing terminal as defined in claim 9.

Claim 11 (Currently Amended): An information service method comprising the steps of:
acquiring identification information of an applicant for purchase and of a product for purchase designated by said applicant via a network;
storing said acquired identification information;
acquiring an order for a surrogate investigation of said product from said applicant via said network; and

Amendment under 37 CFR 1.111
Serial No. 10/030,098
Attorney Docket No. 011713

providing information obtained from ~~an~~ a physical investigation of said ~~the~~ product by an appointed investigation agent, to said applicant on a basis of the stored identification information via said network.
